

1 Kirstie Rea: The Breadth of Stillness

Exhibition Room 1-3 [2,3F]

2022.3.12 [Sat.] ▶ 2022.6.26 [Sun.]

Australian artist Kirstie Rea’s exploration of ‘our sense of connection to place’ is based on her own wanderings and way-finding beyond city limits where she surrenders herself to the stillness of landscapes. Such ‘fieldwork’ experiences inform and permeate her artworks. This solo exhibition, her first in Japan and the largest in scale to date, introduces her most recent work and traces the trajectory of her art from nearly 40 years through glass sculptures and installations.

They were devised by eight famous designers and artists, from 1930 to the today, who labelled them “Art Glass.” For a delightful experience to share with your family, the gallery on the 5th floor is presenting a concurrent exhibition of original Moomin drawings.
